AirFlo

Product Self-Facers

Self facers are an excellent solution for presenting pre-packaged salad and vegetable displays, bagged cheese, seeds and nuts, boxed dips, frozen food products, trayed protein products such as tofu and meats and many more items. Reduce the amount of inventory required to create a full look on your mezzanine shelves.

- **Visual Impact:** Create beautifully uniform, well organized, continuously and perfectly faced sections with minimal inventory
- **Increase Sales:** Self Facing system is proven to increase impulse sales of all packaged goods.
- **Save Labor:** Eliminates manually facing of product
- **Improve Rotation:** Easier to rotate product, resulting in reduced shrink and increased profits.
- **Heavy Duty:** Extruded plastic and stainless steel coil spring for life long dependability
- **Multiple Sizes:** Several options & solutions available for a variety of applications

Benefits and Features:

NEW Adjustable Gravity Feed

Keeps products faced and organized in straight lines to create a uniform, abundent looking display. The Adjustable Gravity Feed surface provides a low coeffecient of friction allowing product to easily slide forward due to angle of shelf.

- *Visual Impact:* Create beautiful, clean, well organized, continuously abundent displays with minimal inventory

- *Increase Sales:* Self facing systems are proven to increase impulse sales of packaged goods.

- *Save Labor:* Eliminates manually facing of product

- *Improve Rotation:* Easier to rotate product, resulting in reduced shrink and increased profits.

- *Category Management:* Keeps product organized and aligned

- *More Options:* Now available for ALL AirFlo CTM shelves and most other shelving

- *One Divider works for all:* Dividers are designed to be interchangeable with all AirFlo Gravity Feed Kits, and now with telescopic properties for most depth shelves. Conveniently repositions and easily removable.

- *AirFlo CTM & Gravity Feed:* Ability to control speed by designating 5°, 10°, 20°, and 30° down.

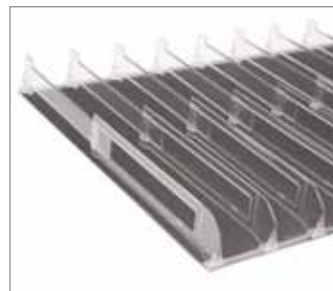

Adjustable Gravity Feed Kit combined with an AirFlo CTM shelf you have the ability to go 5°, 10°, 20° or 30° down
