

Vacuum Formed Bins

Solutions for Inventory Management

Carlson AirFlo® Merchandising Systems curved front bin features a unique Price Tag Moulding (PTM), set at an ideal viewing angle for your customers. This display system creates a stunning visual merchandising presentation which highlights your specialty departments, organics, small produce items and exotic fruits, allows more varieties without adding the large inventory expense.

Outshine. Outsell. Outperform.

Vacuum Formed Bins:

Incredible Savings, Incredible Performance

Getting your customers to say “Wow!” about Carlson AirFlo® Merchandising Systems starts by “how” we can save you money, reduce shrink, lower labor costs and increase profits.

Application:

- Rear Hanging Display Bins model 250149 has been designed to hang in any manufacturer’s case directly, using AirFlo’s Rear Hanging Bar.
- All our vacuumed formed bins are designed to be adaptable to display directly on existing shelving. This creates an entirely new merchandising presentation very inexpensively.

Features:

- Helps manage inventory levels and turnover creating a simple method to rotate product, resulting in reduce shrink and increased profits.
- Works with your existing shelving to quickly convert to a category management system of bins.
- Designed to eliminate standing water from misting systems and simple to clean.
